A number of months ago, way back in June, [we celebrated passing the 150,000-node milestone](#) [3]. In a matter of a few hours we will have posted 160,000 nodes in total, so that's about 10,000 nodes in just over 6 months. 40,000 more should take just over 2 more years assuming the publication pace remains roughly the same. In 2022 the site turns 18. [?](#)
