Although I've not seen an official announcement yet, *Amnesia: The Dark Descent* is ready to download - at least for pre-orders.

So if you pre-ordered, [go get it](#) [3].

This also leads one to think that new purchases will also be taken straight to the download area as well. \$20 is so cheap for the high quality gaming experience that comes from Frictional Games. Compare with the commercial games of Doom 3 and Quake 4 which cost \$49.99.
