Just found this on Read Write Web...

Here's our nominee for most evil Web service of the week:FindHisPorn.com. For a one-time low price of $49.99 only $19.95! Limited time offer!, you can allow a dubious piece of Java voodoo onto your PC (Windows only) and let it scrape the contents of your hard drive and show you all the porn it finds. It's just perfect for spying on that special someone in your life.

Find His Porn is cynically exploiting the paranoid and freaked-out, violating privacy, jeopardizing security and taking people's money. It has been created under a total veil of secrecy. Oh, it's also "perfect for ? Boyfriends, ? Husbands and ? Kids" with the "goal of empowering women everywhere." With its marketing finely tuned, Find His Porn profits off of people's engrained norms, broken trust and technical ignorance
