In the US, for the first time in a very long time the government are going to be in situ this wednesday to vote, do what ever it is they are doing to try and get the Stop Online Piracy Act passed or at least to the next stage.

Realistically does it matter if the pass, fail, whatever, long term the future of copyright and censorship has nothing to do with this act, its' down to the consumer and the internet.. It's you and I not the US Government who hold the future..
